## ABOUT

An ambitious and self-motivated web developer with a considerable technical skill who possesses self-discipline and ability to work with minimum of supervision. Able to play a key role in website development to ensure maximum accessibility, user experience and usability.

---

## EDUCATION

### BACHELOR OF ARTS IN ENGLISH

University Of Calicut

2020-2023

---

## PROJECTS

### ZEPHYR – E-COMMERCE WEBSITE

"Zephyr" is a unique e-commerce platform for brand new watches, emphasizing a holistic shopping experience. By leveraging advanced techniques like OTP verification, I prioritize data security and user privacy. Features include product filtering, convenient payment options, and streamlined admin controls, all within the MVC pattern, ensuring seamless functionality and enhanced user experiences..

Key technologies used : HTML5, CSS, Bootstrap, JavaScript, Node.js, Express.js, MongoDB, AWS, Nginx and GitHub

---

## MINI PROJECTS

### ▪ WEB APPLICATION : USER REGISTER AND LOGIN, ADMIN LOGIN AND EDIT USER:

The web application offers a user-friendly experience with login, signup, and personalized home pages. User data is securely stored in a database, and an admin panel allows efficient management of user information. Admins can view, search, create, edit, and delete user data, ensuring robust control. Proper session and cookie handling prioritize security, ensuring authenticated access. Overall, the application provides seamless interaction and secure data management.

Key technologies used : HTML5, CSS, Bootstrap, JavaScript, Node.js, Express.js, MongoDB and GitHub

### ▪ SpaceX CLONE

Develop a dynamic, responsive public website using HTML, CSS, and JavaScript. Utilize Media queries and Bootstrap to ensure optimal viewing across various devices and screen sizes.

Key technologies used : HTML5, CSS, Bootstrap, JavaScript and GitHub
